

Get Your GED and Start College at the Same Time!

Would you like to go to college, but you don't have a GED?

Lakeland Community College is starting a program, **First Rung to College**, that will allow you to prepare for your GED and make the move to college at the same time.

The program will run for 14 weeks along with Lakeland's semesters. By the end of the program, participants will have earned credit for a college class, *Skills for College Success*, and be test-ready for the GED. All classes will take place in Lakeland's classroom at the **Kirtland main campus**. Pretesting is available in Painesville and Kirtland.
